Summary

Cybersecurity professional working across security engineering, SOC operations, cloud security and digital product delivery in regulated financial services. Lead an eight-member SOC and direct security architecture at Access Bank Ghana, translating business priorities and regulatory expectations into practical controls. Combine hands-on technical delivery with executive reporting, team development and community education.

Work Experience

(full details on LinkedIn)

Apr 2026–Present

Manager, Security Engineering & Architecture at **Access Bank (Ghana) Plc**

Promoted following an A Star performance rating for 2025; retain leadership of the eight-member SOC while directing security engineering and architecture.
Designed an Enterprise Security Architecture Framework being adopted across the bank to standardize security reviews, project approvals, solution design and regulatory alignment.
Led deployments of Infoblox DNS security and Zero Networks microsegmentation, strengthening protection against malicious domains and lateral movement.
Support cybersecurity investment planning, ISO/IEC 27001 certification and PCI DSS compliance through control design, audit preparation and remediation.

Feb 2023–Mar 2026

Team Lead, Security Operations at **Access Bank (Ghana) Plc**

Led an eight-person team delivering 24/7 security operations across Ghana and West African subsidiaries, covering hiring, performance, vendor coordination and operational resilience.
Led CrowdStrike Falcon deployment across approximately 1,359 endpoints, improving endpoint visibility, malware prevention, incident response and audit readiness.
Directed implementation of Seceon aiSIEM and CimTrak file-integrity monitoring, coordinating technology teams, vendors, regulators and senior stakeholders.
Presented significant incidents, operational performance and investment recommendations to executive and board-level stakeholders; supported ISO/IEC 27001, PCI DSS, SWIFT CSP and Bank of Ghana compliance.

Recognition

Key Talent Programme, Access Bank - selected by senior management (2026); Employee of the Quarter, Access Bank - Q3 2023, Q1 and Q3 2024

Earlier Experience

(full details on LinkedIn)

Jul 2021–Aug 2022	**Digital Project Analyst** Access Bank (Ghana) Plc	Coordinated mobile-app development and QA across business, technology, compliance and vendors; supported 20% adoption growth within three months of launch.
Sep 2020–Jun 2021	**Information Technology Support Analyst** Ghana Data Protection Commission	Provided hardware, software and network support; implemented access controls, backups and hardening, and documented more than 50 workstations and servers.

Technical Profile

Architecture:	Security architecture review, Zero Trust, Defense in depth, Google Cloud IAM, Cloud logging & governance, Security by design
Operations:	SOC leadership, SIEM engineering, Incident response, Detection engineering, Vulnerability management, MITRE ATT&CK
Platforms:	CrowdStrike Falcon, Seceon aiSIEM, ArcSight, Securonix, Microsoft Defender, CimTrak, Forescout NAC, Symantec DLP/SWG, Infoblox, Zero Networks
Governance:	ISO/IEC 27001, PCI DSS, SWIFT CSP, Bank of Ghana CISD, Executive reporting, Vendor coordination, Digital product delivery
Systems:	Nessus, Qualys, FTK, Autopsy, Windows Server, Active Directory, Linux, PowerShell, Bash
Languages:	English, Akan Twi, Kasem, Spanish (beginner)

Certifications

Security:	CISSP, CCSP, SSCP, Certified in Cybersecurity (CC) — (ISC)2
Cloud:	Google Cloud Professional Security Engineer
Governance:	PECB ISO/IEC 27001:2022 Lead Implementer
Operations:	EC-Council Certified SOC Analyst; CompTIA Security+

Education

Expected Nov 2026	**MSc Cyber Security & Digital Forensics**, Kwame Nkrumah University of Science & Technology. In progress.
2016–2020	**BSc Telecommunication Engineering (Honors)**, Ghana Communication Technology University. Gold Fields Ghana Foundation Scholar.
2022	**School of Banking Excellence**, Access Bank, The Learning Institute, Lagos. Completed with Distinction; Associate Chartered Banker (ACIB), Chartered Institute of Bankers, Nigeria.

Leadership & Community

BotCamp:	**Programme Director** (Current). Run free robotics and AI bootcamps for underrepresented children, especially girls and young people in rural communities.
DZOBIBI:	**Co-founder** (Current). Co-founded a solar-powered fire detection and response initiative with the Ghana National Fire Service.
Volunteering:	**Employee Volunteering Programme Coordinator** (2022–Present). Mobilized GHS 250,000+ for health, education and sports initiatives reaching 8,970+ people across 12 Ghanaian communities.
CyberFirst:	**Founder & Lead Facilitator** (2023–Present). Delivered coding, digital-literacy and online-safety sessions for more than 15 young participants.
